

Listing of Claims:

1.-19. (Cancelled)

20. (Currently Amended) A composition comprising a combination of plant matter from Ginkgo Biloba, Ginseng, and plant matter from a plant of the genus *Uncaria*, species *tomentosa*, further in combination with one or more substances selected from the group consisting of ~~Ginseng~~, Vitamin E, Selenium, Niacin or nicotinate, Folic acid, Vitamin B12, and Choline.

21. (Currently Amended) A composition comprising plant matter from a plant of the genus *Uncaria*, species *tomentosa*, Dong Quai and Ginkgo Biloba, in combination with one or more substances selected from the group consisting of ~~Dong Quai~~, Bilberry, and Aloe Vera, and further comprising one or more substances selected from the group consisting of Chromium Polynicotinate, Selenium, Vitamin B12 or cobalamin, Folic acid, Biotin, and Thiamine HCl or vitamin B1.

22. (Currently Amended) A pharmacological agent comprising a therapeutically effective amount of a combination of Ginkgo Biloba, Ginseng, and plant matter from a plant of the genus *Uncaria*, species *tomentosa*, in combination with a therapeutically effective amount of one or more substances selected from the group consisting of ~~Ginseng~~, Vitamin E, Selenium, Niacin or nicotinate, Folic acid, Vitamin B12, and Choline, the plant matter and substance and the therapeutic amount of the plant matter and substance selected for efficacy in reducing, disrupting, dissolving, inhibiting, amyloid fibrils in a subject.

23. (Currently Amended) A pharmacological agent comprising a therapeutically effective amount of plant matter from a plant of the genus *Uncaria*, species *tomentosa*, Dong Quai and Ginkgo Biloba, in combination with a therapeutically effective amount of one or more substances selected from the group consisting of ~~Dong Quai~~, Bilberry, and Aloe Vera, and a therapeutically effective amount of one or more substances selected

from the group consisting of Chromium Polynicotinate, Selenium, Vitamin B12 or cobalamin, Folic acid, Biotin, and Thiamine HCl, or vitamin B1, the plant matter and substance and the therapeutic amount of the plant matter and substance selected for efficacy in reducing, disrupting, dissolving, inhibiting, amyloid fibrils in a subject.

24. ~~(Cancelled) The pharmacological agent of claim 22 wherein the therapeutically effective amount of plant matter has an *in vitro* amyloid inhibitory activity or efficacy greater than 50%.~~

25. ~~(Cancelled) The pharmacological agent of claim 23 wherein the therapeutically effective amount of plant matter has an *in vitro* amyloid inhibitory activity or efficacy greater than 50%.~~
